

MOOG® Complete Knuckle Assembly

Easy to Install – Saves up to 1.5 hours in time

The new MOOG® Complete Knuckle Assembly is designed to make troublesome bearing replacement easier. The pre-assembled part eliminates the need for special tools or a press, resulting in easier installation and time savings of up to 50%.

In addition, it saves the time required to locate and source multiple parts.

Pre-assembled unit includes application-specific, premium components:
